Previous Projects

Let’s start with Lily telling us about her project
A new Bus Shelter

My project was on prioritizing the installation of a bus shelter near my local independent living center.

My reason for a new bus shelter being the fact that my hometown’s wind makes the cold weather seem even colder, which can make disabilities feel worse.
What do you think the logo stands for in Disability EmpowHer Network?
The logo stands for a mentor and mentee sharing a bond which helps them spread advocacy and change.
Visiting a domestic violence shelter

My project took some time to get started because I had to find a shelter that was willing to work with me.

I learned many things along the way...

How many women each day are raped or sexually assaulted?
500 women

Whoa! That’s a big number!

That’s 1 in 4 women each day, according to futures without violence!

Our different Communities
Why it’s important to have support
Why I needed support during my project

Tried asking bus station for help
Talked to mentor
Contacted PACE
Said come to meeting
Gave me ideas
Discovered local disabled community
Gained more connections
Future involvement
Hey Jill & Mandie! I'm stuck on this project!

Jill: you should do a domestic violence shelter!

Mandie: Good idea guys! I'll call around, see if I can find a shelter!

★ Sometimes you just have to find your community!

Being leaders

What does that mean in different ways
Leading in different ways

★ I usually lead with words and empowerment, which is very important when speaking to different groups.
★ I use online resources to my advantage, creating posts and petitions.
Leading in different ways continued

- I let my community know the big issue is in our community
- I led myself and mentor through an online training to become a Certified Inclusion Ambassador
How can all of you lead?

- How do you lead in your daily life?
- Is there any time that you’ve led where you’ve felt particularly proud?
THANKS!
