

Facilitating Groups Training - New!

The RTC:Rural recently pilot-tested a new training workshop with CIL stakeholders called Facilitating Groups Training (FGT). The FGT workshop is ready to go!

FGT is focused on building skills for setting up and leading peer group and training events. The 5-session workshop covers a variety of topics that build facilitation skills, such as foundations of facilitation, building relationships, active listening, asking questions, and more. Organizational capacity aspects, such as getting your workshop started at your CIL, orienting consumers to technology, retention and engagement, hybrid groups, and facilitator self-care are also covered.

FGT is a great staff development opportunity for new and seasoned CIL staff. Starting in October, FGT will be included in our slate of live Healthy Community Living (HCL) programs. Check out our HCL Training Website to learn about upcoming FGT training opportunities.

Enter our raffle at the RTC:Rural table to win a promo code for a free training sign up!
